For your convenience, the business illustrations are placed alphabetically around the perimeter of the map, starting in the upper left corner and moving clockwise. The numbered red circles on the map are in numerical order, from left to right.
This illustrated cartoon map is intended to help our guests decide what to do on their vacation and give them an idea as to the locations of some of this area's best establishments. It is not intended for use as a complete or detailed street map. If you have any questions as to the exact driving directions to any of the participating locations, please call the phone number at the end of each establishment's write-up in the Guest Guide, which begins on page 9.
